Jabbed pilots' roll call of death and injuries

By [Sally Beck](#) · March 27, 2023

- March 3: Virgin Australia crew received a memo describing why flight VARA A320 from Adelaide to Perth returned 30 minutes into the journey: "The First Officer [co-pilot] became unwell. A return to Adelaide was considered the best course of action by the captain."
- March 11: United flight 2007 from Guatemala to Chicago was diverted because the captain had chest pains, landing at George Bush airport in Houston.
- March 12: It is reported that a British Airways pilot collapsed and died in a hotel in Cairo, Egypt, shortly before he was due to fly.
- March 13: Emirates flight EK205 from Milan turned back because the co-pilot felt unwell 90 minutes after take-off.

Emirates Flight EK205 MXP-JFK from Milan diverted on March.13, 2023 due to pilot illness, returned to Milan for emergency landing - now 4th pilot incident this month

Many airlines mandated C-19 although pilots are not allowed to take part in drug trials and are allowed to receive only approved medication in general use for a minimum of 12 months. (SOURCE: FAA) Covid vaccines are experimental and we are in phase 4 trials. 5/12
